Easy to Use RJ45 Crimp Tool & Connectors

QuikThru Professional Crimp Tool

902-548

The QuikThru Crimp Tool and QuikThru RJ-45 connectors make terminating your network cables a breeze. Simply feed your separated wire pairs through the connector and the guides will hold everything in place. Then with a simple squeeze the tool will crimp on your CAT5 or CAT6 connector and trim off all excess wire.

Also works with standard RJ11 & RJ45 plugs
Interchangeable with competitor's brand
(Replacement blades available 902-547)

Holes in front of connector
for excess wire passthrough
and EASY sorting.

3 Prong, 50µ gold contacts - the best!
Works on Solid & Stranded wire

QuikThru RJ45 Connectors
